Policy 20 – Acceptable Use & Workstation Security

1. Table of Contents

1 Document Content Page

2 Policy Objectives and Scope

2.1 Purpose

2.2 Scope

2.3 Acceptable Use Rules

2.4 Workstation Configuration & Updates

2.5 Internet, Email & Messaging

2.6 Removable Media & Printing

2.7 Personal Devices & Local Storage

3 Policy Compliance

3.1 Compliance Measurement

3.2 Exceptions

3.3 Non-Compliance

3.4 Continual Improvement

2. Policy Objectives and Scope

2.1 Purpose – Define responsible use of company systems and secure configuration of endpoints.

2.2 Scope – All users and devices accessing company networks or data.

2.3 Acceptable Use Rules

- Use company assets for authorised business activities; limited personal use allowed if it doesn't create risk.
- Prohibit illegal, harassing, or copyright-infringing activities.

2.4 Workstation Configuration & Updates

- Enable full-disk encryption, host firewall, and automatic OS patches.
- Auto-lock after 10 minutes idle and require password/PIN to resume.

2.5 Internet, Email & Messaging

- Users must not forward company data to personal email.
- Use approved messaging tools for business discussions.

2.6 Removable Media & Printing

- Collect printed sensitive docs immediately; shred when done.

2.7 Personal Devices & Local Storage

- BYOD must meet endpoint-security requirements (PIN, encryption, patching) and register with IT.
- Store company data only in approved, encrypted containers or apps.

3. Policy Compliance

3.1 Compliance Measurement – Quarterly workstation audit checks encryption, lock settings, and patch status.

3.2 Exceptions – Temporary deviation (e.g., lab testing) requires documented approval and time limit.

3.3 Non-Compliance – Policy breaches result in access suspension until remediation; severe cases escalate to HR.

3.4 Continual Improvement – Update rules with new collaboration tools and emerging endpoint threats.
